

IN GREEN SHAPE

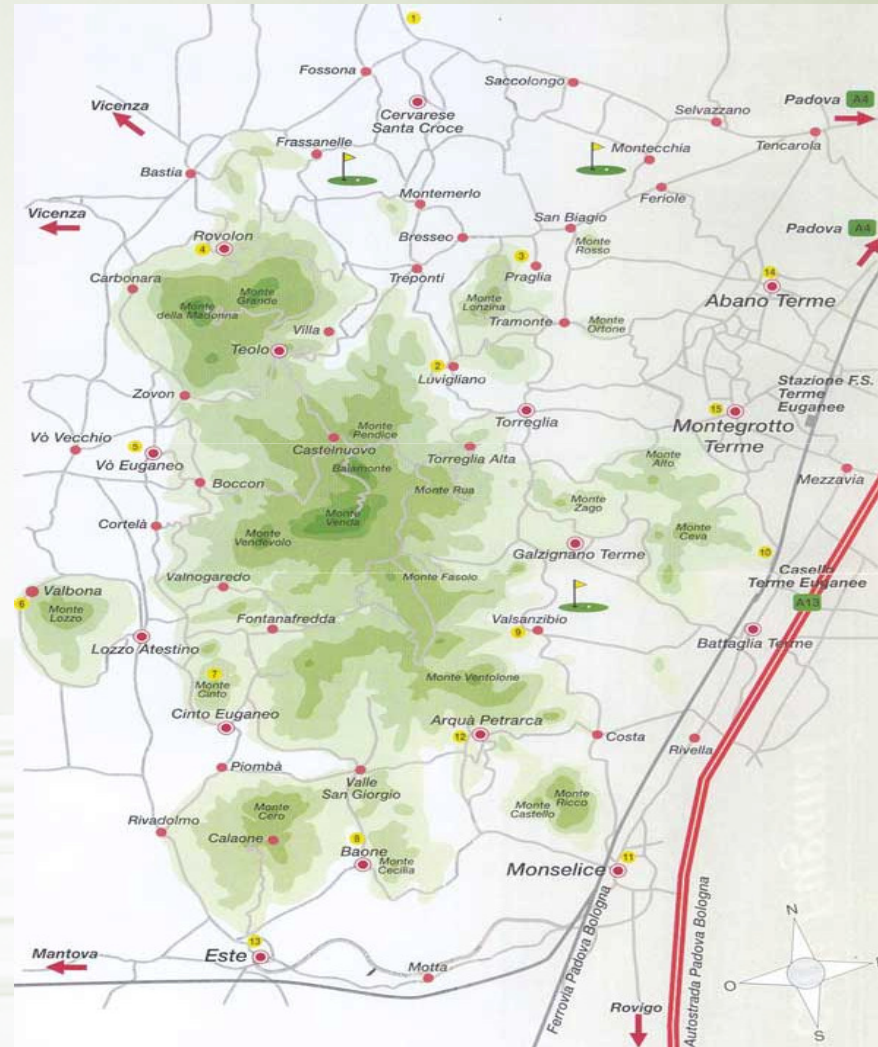

Meeting in Austria 27/28 of February 2014

State of the art of the project

The activities (1)

1. We contacted a natural guide to support us in the development of the project and contacts in the Euganean hills
2. We Prepared and sent a customised email to try to involve restaurants/bb/bars/oil mills located in the Euganean hills in the in green shape project

The activities (2)

1. We contacted more or less 150 places located in the Euganean hills area: restaurants, bars, bb, oil mills and vineyard.
2. The letter we sent told them about the project and asked them to be part of the project.
3. Some of them will be directly involved because in the pathways we are developing some other will support the project and be involved in the propedeutic activities like the course on vegan cuisine we are organising starting from September 2014.
4. All the places that agreed to be part of the project will later offer a vegan menu based on zero mile and organic products. They will be added in the brochure we are translated into Italian. BB will offer vegan and zero mile organic breakfast and will give information about the restaurants/places participating to the project.
5. Oil mills and vineyard produce organic oil and wine

So far we have received the interest from many of these places (50 more or less) but we are evaluating their real will by having a meeting in the next period. Many are very famous restaurants of the area with the classical “Euganean hills” menu which is definitely out of date

The activities (3)

1. We have started to draw the 3 pathways. - These are the drafted one
 - a) Churches, monasteries and hermitages: history and religion in the heart of the Euganean Hills Torreglia - Castelletto -Monte Rua - Monte Piro - Torreglia
 - b) Mount Gemola e Mount Cinto, histories of Saints and bandits. Mount Fasolo - Mount Gemola - villa Beatrice d'Este - Mount Cinto - Buso dei Briganti - Cava Bomba
 - c) Ancient Crafts and Medieval Villages Arquà Petrarca -Mount Calbarina and Mount Piccolo pathways- Arquà Petrarca
 - d) Ancient walled cities, Valnogaredo and the cultivation of the surrounding valleys. Este - Monselice - Valnogaredo .

We will choose three of them for the Italian version brochure and 2 for the common leaflet in English

We have also provided Retzhof Castle with the first dissemination template.

In Green Shape

Next future activities

On the 7th of March we have a conference for the dissemination of the project and where 2 famous naturopaths speak about natural ways to care about our bodies. The conference is called “it is easy to be healthy”.

At the end we are offering a vegan buffet.

The issues are: ethic food, rigeneration of the body organs, understanding sicknesses and fundamental information about a natual first aid.

We have already had a first meeting with our 1 best practice <http://retica.net/>
